BILL NO. S-80-05- 30

SPECIAL ORDINANCE NO. S- 67-80

AN ORDINANCE approving Change Order No. 8 Contract No. 77-W-2, in connection with the Filtration Plant Addition.

BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF FORT WAYNE, INDIANA:

SECTION 1. That Change Order No. 8 to Hagerman-Shambaugh, joint bidders, in connection with the Filtration Plant Addition, for:

additional steel channel jambs for protection of masonry edges at the elevator, reconstruction of headwall at washwater retention basin, pumping and hauling oil and water leaked into area during removal of old fuel tanks, removal of large masses of concrete supporting railroad track spur,

in the amount of $24,131.65, as set out in the specifications, is hereby in all things ratified, confirmed and approved.

SECTION 2. That this Ordinance shall be in full force and effect from and after its passage and approval by the Mayor.

COUNCILMEMBER

APPROVED AS TO FORM AND LEGALITY MAY 23, 1980.

JOHN E. HOFFMAN
City Attorney

RE: City of Fort Wayne, IN
Water Works Improvements
Filtration Plant Additions
Contract 77-W-2

Dear Mr. Boller:

We are submitting the following information concerning Change Order No. 8 dated April 14, 1980 for your review.

Item 1 of this Change Order includes 4 changes described in Bulletin No. 8 dated February 12, 1980. Items 2, 3 and 4 of the Change Order are items for which the Contractor has claimed extra work.

Item 1 of Change Order No. 8

The steel channel jambs described in item 1 of the Bulletin were recommended by the elevator manufacturer to protect the masonry edges at the elevator.

Item 2 of the Bulletin was necessitated by actual field conditions which were not apparent during design of the project.

Item 3 provides for reconstruction of the headwall at the washwater retention basin. The existing headwall was undermined when the roller gates at the Hosey Dam were raised.

Item 4 was required because soda ash feeders provided required a greater electric power supply than anticipated.

Item 2 of Change Order No. 8

We are recommending payment to the Contractor for additional work to modify covers at the new chemical unloading area. It was not apparent

RECEIVED
MAY 12 1980
CITY UTILITIES
WATER WORKS ENGINEERING

during design and shop drawing review that the original covers could be damaged by rail cars passing over.

Item 3 of Change Order No. 8

This item is for additional work required by the Contractor during excavation for new fuel oil tanks. The extra work was for pumping and hauling oil and water which had leaked from the old fuel tanks. This condition was not anticipated during design.

Item 4 of Change Order No. 8

This item is for additional work required to remove large masses of reinforced concrete that supported an existing railroad track spur. These large footings were not shown on the Drawings.

We have reviewed pricing submitted by the Contractor and feel it is responsive to the nature of the work. Daily time and material slips were kept by our Resident Engineers for Items 2, 3 and 4.

If you require additional information please feel free to contact us.

Very truly yours,

McNAMEE, PORTER AND SEELEY

Date: February 12, 1980

Attention: Ralph Turner
Ronald Hoke

Project: City of Fort Wayne, IN
Water Works Improvements
Filtration Plant Additions
Contract 77-W-2

BULLETIN NO 8

INTENT: This is not a change order. This is a request to the Contractor for a detailed price breakdown of proposed changes in the work.

PROPOSED CHANGES:

1. Provide C8 x 11.5 Channel jambs with strap anchors to be built into masonry at all elevator entrances in the new Chemical Building (5 total).

2. The opening into the existing North Gallery at the two 30-inch bypass lines is revised. Provide structural steel supports as detailed on Supplemental Sheet SS-8 which is being issued with this Bulletin. Also see Letter 2/15, and see Letter 2/26

3. Construct new headwall at the existing wash water retention basin overflow as detailed on supplemental sheet SS-9 which is issued with this Bulletin. Break up existing headwall and use for concrete fill or underlay for rip-rap. Reuse existing flap gate. Provide new hardware.

4. Increase the power supply to be provided for the three 120-volt Soda-Ash Feeders from 25 amps to 45 amps. Feeders affected:

   No. 1 in the Softening Bldg. - Existing circuit.
   No. 3 in the Chemical Bldg. - LP-B(16).
   No. 4 in the Chemical Bldg. - LP-C(16).

   For each of the above use a 45 amp circuit breaker in the panelboard and serve with 2#8 and 1#10 wires in code size conduit.

REASON FOR CHANGES:

1. The frames are recommended by the elevator manufacturer to protect masonry work.

2. Additional supports are required due to the design of the existing structure.

3. The headwall was designed as a floating structure with a perimeter footing wall. Washout at headwall due to lowered river elevation requires that this structure be rebuilt.

4. Greater power supply is required for chemical feeding equipment.

Will the work covered by this Bulletin require an extension of the contract completion date _____. How many calendar days_____.

It is requested that the spaces provided for the change in contract amount, signature and date be filled in and 3 copy/copies returned to this office. A quotation, showing the Bulletin number and the detailed cost setting forth the breakdown of labor, material and markup, is to be attached to each copy of the Bulletin, showing the addition, credit or no charge for each item.

Re: City of Fort Wayne, Indiana
Water Works Improvements
Filtration Plant Additions
Contract 77-W-2

Gentlemen:

It is necessary to revise supplemental drawing SS-8 issued with Bulletin No. 8 issued February 12, 1980.

The steel beam at the north wall of the existing north gallery should be W12X35 rather than W10X35 as shown on the drawing. This also changes a demolition dimension in Detail A.

Supplemental drawing SS-8 is being reissued.

Re: Bulletin #8, Items 3 and 4
Additions to Filtration Plant
Fort Wayne, Indiana

Gentlemen:

We are quoting Items 3 and 4 of Bulletin #8 as follows:

	Labor	Material	Subcontractor
Item #3			
Demolition, Excavating, Riprap	$ 60.00	$ -	$ 1,460.00
Remove & Reset Flap Gate	300.00	100.00	-
Concrete	1,054.00	858.00	-
	$ 1,414.00	$ 958.00	$ 1,460.00
Fringes	325.00		
Markup	261.00	96.00	146.00
Subtotals	$ 2,000.00	$1,054.00	$ 1,606.00
Total Cost	$ 4,660.00		

This price is based on 33 cubic yards of riprap. Unit prices for changes in amount of riprap are $22.00/cu. yd. for added amount and $8.00/cu. yd. for deducted amount.

Item #4 Electrical Changes

Material	$ 1,856.00
Labor	472.00
Subcontract Cost	$ 2,328.00
Markup	233.00
Total	$ 2,561.00

Re: Fort Wayne Water Treatment Plant

Gentlemen:

Reference is made to the problems encountered when excavating for the new fuel oil tanks. The old tanks were leaky and oil and water continually seeped out of the banks. Since this could not be pumped into the sewers, tank trucks had to be hired to pump it out and dispose of it. Also, the concrete pad was changed from a two foot thick unreinforced pad to an eighteen inch thick reinforced pad. Not included in this proposal is any change in the pad or construction above the tanks because no definite plan has been made at this time.

The following are extra costs because of these changes:

Tank Trucks & Disposal	$	2,275.00
Trucks & Backhoe (Added Excavation)	$	760.00
Subcontractor's Cost	$	3,035.00
Subcontractor's Markup	$	758.75
Subcontractor's Total	$	3,793.75
Concrete Less 12 1/2 c.y.	$ -	600.00
Rebar Add 1 Ton	$ +	784.00
Contractors Extra Labor 32 Hr.	$	384.00
Supervision	$	120.00
Subtotal	$	4,481.75
Markup	$	448.25
Total	$	4,930.00

Very truly yours,

HAGERMAN CONSTRUCTION CORPORATION

Re: Fort Wayne Water Treatment Plant

Gentlemen:

Your attention is directed to the fact that the existing railroad which had to be removed for the new chemical building was setting on heavy grade beams and pile caps. This fact was not indicated or inferred on the drawings and caused additional work to be performed. We are requesting payment for the following:

D4 Bulldozer	4 Hr. @ $50.00	$ 200.00
P & H Backhoe	4 Hr. @ $60.00	$ 240.00
Trucks	4 Hr. @ $40.00	$ 160.00
Michigan with Breaker	16 Hr. @ $65.00	$ 1,040.00
Supervision	6 Hr. @ $15.00	$ 90.00
	Total	$ 1,730.00
	Markup	$ 173.00
		$ 1,903.00

We will appreciate your early favorable consideration of this so that the excavator can be paid on this extra.

Very truly yours,

HAGERMAN CONSTRUCTION CORPORATION
